Subject: Stormwater Management

I am providing the following written submission that I would request be added to 6.3, Policies of Stormwater Management of Bylaw 1310/19:

6.3.5 Lacombe Lake shall not be used as a stormwater receptacle.

This policy will ensure that Lacombe Lake, a “jewel in the Crown” of the Lacombe County, will remain a lake for all Albertans to enjoy. And it will particularly benefit Blackfalds given its proximity to the town.

Thank you,

Marni Alexander
