Dear: Mr Timmons

Re: **Commercial Safety Rest Area (CSRA) Project
Site Selection Update**

Further to my February 25, 2021 correspondence, I am writing to provide an update on Alberta Transportation's CSRA project.

Alberta Transportation has updated the preliminary listing of potential sites in order to reflect feedback received from municipalities and the Alberta Motor Transport Association. The resulting listing includes 18 sites, each of which will be offered for commercial development by way of a public Negotiated Request for Proposal (NRFP); I have enclosed a map showing the locations of the sites. Please note that depending on proponents' opinions of these sites' marketability, it is possible not every site may be selected for development.

Alberta Transportation anticipates the NRFP will be advertised this winter, with a submission deadline of early 2022. The department will select the successful proponent for each site, and the final contracts are anticipated to be awarded in 2022. As additional details are confirmed over the coming months, I will continue to provide you with project updates and be available for any questions you may have.

If you have any questions or concerns regarding this project, please contact me at 403-340-5209 or at stuart.richardson@gov.ab.ca.

Sincerely,

Stuart Richardson, P. Eng.
Infrastructure Manager
