

Hello,

Parkland Regional Library System (PRLS) realizes that newly elected councilors have many responsibilities and a steep learning curve.

To help councilors understand their role in the provision of public library service, PRLS has prepared a brief, 30-minute, instructional session that is available for either online or in-person presentation. The purpose is to explain the structure of public library service in Alberta. Topics covered in the presentation include the role of councils and municipal library boards, the role of library systems like Parkland, their services, and the role of the provincial government.

Should your council be interested in a presentation, please contact us by email at administration@prl.ab.ca or by telephone at 403-782-3850 ext 232 to arrange a virtual or in person orientation.

We hope you will take advantage of this opportunity and look forward to hearing from you.

Cheers,

Haley Amendt, MLIS

Consultant Librarian
