Meeting with Minister of Transportation at RMA	Tim has advised Minister's office Council wishes to meet, waiting for date and time	Tim/Laverne	
Mr. Wilson referred to cannabis facility renewals and inquired if the County ensures approved facilities are following the conditions of their permit.	Mr. Freitag advised the County does follow up on conditions of approval and all conditions must be met before any operations commence. The County then follows up on operational conditions, but this is often based on complaints. To date the County only has two cannabis operations and there have been no complaints received. Mr. Freitag commented that Federal authorities also monitor these operations.		
Mr. Weenink commented that he has been advised by a ratepayer that a County fire charge was processed through his insurance policy.	Mr. Burlock advised that the County does bill back to insurance companies for fire call charges. Previously County ratepayers were not charged for fire calls, but this process was implemented about one year ago as it is an insurable charge. Mrs. Knight inquired if it should be published in the County News that the County is now charging for fire calls.		
Ms. Shepherd commented that at the time of the MDP and LUB review it would be beneficial to have an overview of the NRCB guidelines for ILP operations.	For reference at time of MDP and LUB Review		
Mr. Ireland referred to solar developments, ACU approvals and inquired who is responsible to ensure that there is post life reclamation in place.	Mr. Freitag advised that the ACU requires developers to have a plan for reclamation of the site. Mr. Timmons commented the County does have the discretion to put this in place if deemed necessary.		
Mrs. Kreil inquired if Council could be updated on the Agricultural Operation Practices Act (AOPA) at a future ASB meeting.	Mr. Burlock advised that a second ASB meeting would have to be set as the March 1, 2022 agenda is full. It was agreed that information on the AOPA will be sent to Council for their review.
