Mrs. Kreil referred to a recent LRSWA			
Mrs. Kreil referred to a recent LRSWA meeting where information regarding a tire recycling company looking for a place to locate in Central Alberta was presented. Mrs. Kreil inquired if the company could contact the County's EDO.	Mr. Timmons commented that the company can contact Mr. Freitag directly.		
Mrs. Kreil commented with regard to lobbying for the provision of the Nurse Practitioner Program in the Province and inquired if the County could take this as a motion to RMA?	Ms. Shepherd commented perhaps the municipalities that are currently funding and participating in the Program could be contacted to see how it is working.		
Greenhouse and their ability to capture carbon. Mr. Weenink further commented that it would be informative if Council toured their facilities.			
Mr. Weenink inquired who directs the truck routes for Highway 604.	Mr. Freitag advised that the County does direct travel routes from some gravel pits in the County to Highway 604. Council previously made the decision to be less restrictive with truck routes from gravel pits. The County cannot direct gravel routes on provincial roads as we have no jurisdiction.		

<p>Mr. Weenink commented that at a recent Lacombe Regional Tourism meeting it was discussed that there is no tourist information booth in Lacombe at this time. Mr. Weenink inquired what the County should or can do regarding this matter.</p>	<p>Mr. Timmons commented that this could be discussed as part of the Economic Development Strategy. Mr. West commented that when Lacombe Regional Tourism attended Council they advised that the booth was not busy, and they now have mobile vans in place that are a trade off for the booth.</p>
